Re-Introducing [After Fire: Toolkit for the Southwest](#)

This website was designed to help managers, landowners and communities assess and prevent damage due to post-fire flooding and related events. Given the recent, devastating fires in the region, we want to remind you of this collection created by a team of scientists and spearheaded by Dr. Megan Friggens (US Forest Service) and members of the USDA Southwest Climate Hub.

Other resources to help prepare and recover:

[USDA Disaster Center](#) - provides information about specific disasters and emergencies, how to prepare, recover, and help build long-term resilience, as well as information about USDA assistance during disaster events.

[American Red Cross](#) - opens shelters for evacuees of California wildfire.

[DisasterAssistance.gov](#) - access to disaster help and resources.

[Extension Disaster Education Network \(EDEN\)](#) - improve the delivery of services to citizens affected by disasters. EDEN's mission is to reduce the impact of disasters through research-based education.

[Federal Emergency Management Agency \(FEMA\)](#)

[Fire Management Assistance Grants](#) - to help cover the costs of emergency work in California.

[Small Business Administration \(SBA\) Disaster Center Offices](#)

[USDA Service Center Locator](#) - USDA Service Centers is a single location where customers can access the services provided by the Farm Service Agency, Natural Resources Conservation Service, and the Rural Development agencies.

[National Interagency Fire Center \(NIFC\)](#) - provides information on large fires throughout the US. Currently reports are updated on Fridays.

[InciWeb](#) – provides information specific to an incident and can be sorted by location or other attributes.
